Why Buy 2 Different Software Packages for Inventory and Traceability?

 You can get both (and so much more) with WaudWare's [Produce Inventory Control System](#) (PICS) Software!

Maintaining accurate inventory records involves entering receipts, shipments, adjustments and other transactions. Traceability information should be a consequence of these entries, not an after-thought. Why duplicate your effort (once for accounting and again for traceability) when one software system does both. [PICS](#) is more accurate, easier to user, and less expensive to buy and maintain.

Produce Inventory Control System (PICS) Software

We have a proven track record with our [all-in-one produce specific software package](#) that includes these features AND built-in traceability. Dig deeper into [PICS](#) and [WebPICS](#).

WaudWare is continually working to ensure PICS meets the requirements of the Food Safety Modernization Act (FSMA) created by the U.S. Food & Drug Administration (FDA) and the Canadian Food Inspection Agency's (CFIA) latest Safe Food for Canadians Act (SFCA) regulations which demand importers of food maintain accurate traceability and third party/auditor certification information.

Features of PICS Software:

- Buying
- Selling

- Production

- Growing
- Brokerage
- Accounting

- Security
- Management Information
- Optional Add-on Components

Who Uses PICS and WebPICS Software?

- Wholesalers
- Jobbers
