WaudWare Announces Strategic Partnership

WaudWare Incorporated announces a strategic partnership to provide best in class [CIS Continuous Improvement Software](#) for full compliance with SQF / FSSC 22000 / ISO 22000 / HACCP / GFSI / SFCR / FSMA regulations.

Manage your entire food safety and quality system with [CIS Continuous Improvement Software](#). Meets full compliance standards with FSMA and SFCR regulations.

CIS - Continuous Improvement Software features:

- Traceability, Preventative Control Plans
- Internal Audits/Accredited Third-Party Audits
- Preventative Controls, HACCP Plans & Prerequisite Programs
- Gap Analysis, SQF Improvement and GMP Management
- Complete Document Management and Control
- HR Training and Competencies Management
- Full Reporting and Key Performance Indicators

"Once CIS was implemented, we were able to organize and retrieve all of our information in one single system. We no longer dread ISO audits, which is a huge burden off of my shoulders. I can confidently state that this software was a huge factor in Advotech becoming ISO certified four months after launching CIS, even though we had been attempting to accomplish this for 8 years prior." Keith Dungan, General Manager of Advotech Company Inc.

Special Offer for WaudWare/PICS Customers:

If you are interested in becoming compliant with SQF / FSSC 22000 / ISO 22000 / HACCP / GFSI / SFCR / FSMA regulations, please review the [special offer for PICS Customers](#) then email us at sales@waudware.com and we will make the appropriate introductions.

Sincerely,

F. Charles Waud, President

WaudWare Incorporated
